Dr. W. E. B.Du Bois,
Editor of the "Crisis,"
70 Fifth Ave., City.

Dear Dr. DuBois:

In the October number of the A. M. E. "Review" Mrs. Alice M. Dunbar will contribute an article -- an intimate sketch or story on Paul Lawrence Dunbar. This will be the first time that Mrs. Dunbar has written for publication anything concerning him, and it ought to be of great interest and value. In the same number President W. S. Scarborough will contribute a paper on the work of Dunbar, in which he seeks to fix his place in the sphere of letters. We will also have in that number an article from Bishop John Hurst giving the attitude of Hayti toward the United States. If not inconsistent with your policy will you please call attention to these things in the next number of your valued publication?

Very truly yours,

RCR/FBH
